Subject Index, Volume 165

Acute pancreatitis
Peptide YY ameliorates cerulein-induced pancreatic injury in the rat; 690

Adhesions
Dose dependency and wound healing aspects of the use of tissue plasminogen activator in the prevention of intra-abdominal adhesions; 229
Role of mast cells in peritoneal adhesion formation; 127

Alimentary tract surgery
Is fellowship training in alimentary tract surgery necessary?; 2

Alkaline phosphatase
Editorial comment (E), 224
Value of preoperative bone and liver scans and alkaline phosphatase in the evaluation of breast cancer patients; 221

Amino acids
Sepsis impairs gut amino acid absorption; 150

Anastomosis
Endoscopic drainage of esophageal suture line leaks; 362

Anastomotic leakage
A reliable operative procedure for preparing a sufficiently nourished gastric tube for esophageal reconstruction; 273

Anesthesia
Impact of method of anesthesia on the accuracy of needle-localized breast biopsies; 218

Angiography
Critical appraisal of the angiographic portacaval shunt (TIPS); 566
Preoperative visceral angiography alters intraoperative strategy during the Whipple procedure; 607

Antibiotic
Continuous infusion of cefazolin is superior to intermittent dosing in decreasing infection after hemorrhagic shock; 203

Appendectomy
Laparoscopic versus traditional appendectomy for suspected appendicitis; 670
Review of the pathologic diagnoses of 2,216 appendectomy specimens; 618

Appendicitis
Laparoscopic versus traditional appendectomy for suspected appendicitis; 670
Review of the pathologic diagnoses of 2,216 appendectomy specimens; 618

Artery occlusion
Surgical treatment of common carotid artery occlusion; 302

Autogenous fistula
Fate of infected and eroded hemodialysis grafts and autogenous fistulas; 632

Bacterial translocation
Reduction of bacterial translocation with oral fibroblast growth factor and sucralfate; 195

Barrett's esophagus
Motility differences between long-segment and short-segment Barrett's esophagus; 686

Bile acid therapy
Oral and contact dissolution of gallstones; 427
Overview of therapeutic modalities for the treatment of gallstone diseases; 420

Bile acids
Site specificity and meal stimulation of the intestinal absorption of water, electrolytes, and bile acids; 704

Bile duct
Complications of laparoscopic cholecystectomy: a national survey of 4,292 hospitals and an analysis of 77,604 cases; 9

Bile leak
Complications of laparoscopic cholecystectomy: a national survey of 4,292 hospitals and an analysis of 77,604 cases; 9

Brachytherapy
Extending the limits of lung cancer resection; 572

Breast biopsy
Breast biopsy in women 30 years old or less; 708

Breast cancer
Breast biopsy in women 30 years old or less; 708
Comparison of classic and quantitative prognostic factors in hormone receptor-positive and hormone receptor-negative female breast cancer; 307
Determination of placental ferritin-positive peripheral lymphocytes in early stages of breast cancer; 213
Editorial comment (E), 224
Hormone replacement therapy in previously treated breast cancer patients; 372
Impact of method of anesthesia on the accuracy of needle-localized breast biopsies; 218
Value of preoperative bone and liver scans and alkaline phosphatase in the evaluation of breast cancer patients; 221
What's in *The British Journal of Surgery*?; 383

Breast mass
Breast biopsy in women 30 years old or less; 708

Burn
Editorial comment (E), 331
Recovery from postoperative hypothermia predicts survival in extensively burned patients; 326
Role of polyamine biosynthesis during gut mucosal adaptation after burn injury; 144

Captopril
Adjunctive vasodilator therapy in the treatment of murine ischemia; 697

Carcinoid
Biology and management of the midgut carcinoid; 288

Carotid bypass
Surgical treatment of common carotid artery occlusion; 302

Cefazolin
Continuous infusion of cefazolin is superior to intermittent dosing in decreasing infection after hemorrhagic shock; 203
Editorial comment (E), 207

Cholecystitis
Laparoscopic cholecystectomy in pregnancy; 625
Laparoscopic management of acute cholecystitis; 508

Cholecystokinin
Peptide YY ameliorates cerulein-induced pancreatic injury in the rat; 690

Choledochal cyst
Surgical management and long-term follow-up of patients with choledochal cyst; 238

Choledocholithiasis
Endoscopic retrograde cholangiopancreatography and laparoscopic cholecystectomy; 474
Laparoscopic approach to common duct pathology; 487
Lithotripsy in the treatment of biliary stones; 479
Role of open choledochotomy in the treatment of choledocholithiasis; 483

Cholelithiasis
Clinical manifestations and impact of gallstone disease; 404
Comparison of laparoscopic cholecystectomy with open cholecystectomy in a single center; 459
Complications after laparoscopic cholecystectomy; 533
Complications of laparoscopic cholecystectomy; 527
Cost-effectiveness of laparoscopic cholecystectomy versus open cholecystectomy; 466
Diagnosis and management of biliary complications of laparoscopic cholecystectomy; 663
Effect of nonbiliary problems on laparoscopic cholecystectomy; 522
Exposure, dissection, and laser versus electrosurgery in laparoscopic cholecystectomy; 492
Foreward: gallstones and laparoscopic cholecystectomy; 388
Gallbladder and gallstone removal, open versus closed laparoscopy, and pneumoperitoneum; 497
Gallstone lithotripsy; 430
Laparoscopic cholecystectomy in pregnancy; 625
Laparoscopic cholecystectomy: the European experience; 444
Laparoscopic versus open cholecystectomy: the Canadian experience; 455
Mini-lap cholecystectomy; 439
National Institutes of Health consensus development conference statement on gallstones and laparoscopic cholecystectomy; 390
Natural history of asymptomatic and symptomatic gallstones; 398
Open cholecystectomy; 434
Oral and contact dissolution of gallstones; 427
Overview of therapeutic modalities for the treatment of gallstone diseases; 420
Pathogenesis of gallstones; 410

Registry of laparoscopic cholecystectomy and new and evolving laparoscopic techniques; 536
Routine versus selective intraoperative cholangiography; 505
Spectrum and management of major complications of laparoscopic cholecystectomy; 655
Surgery for gallstone pancreatitis; 515
U.S. experience with laparoscopic cholecystectomy; 450

Clips
Development of independent vessel security after ligation with absorbable sutures or clips; 345

Colon cancer
Use of the radiolabeled murine monoclonal antibody, ^{111}In-CYT-103, in the management of colon cancer; 137

Colorectal cancer
Use of the radiolabeled murine monoclonal antibody, ^{111}In-CYT-103, in the management of colon cancer; 137

Common bile duct
Complications after laparoscopic cholecystectomy; 533
Complications of laparoscopic cholecystectomy; 527
Diagnosis and management of biliary complications of laparoscopic cholecystectomy; 663
Spectrum and management of major complications of laparoscopic cholecystectomy; 655

Complications
Diagnosis and management of biliary complications of laparoscopic cholecystectomy; 663
Spectrum and management of major complications of laparoscopic cholecystectomy; 655

Computed tomography
Comparisons of dynamic infusion and delayed computed tomography, intraoperative ultrasound, and palpation in the diagnosis of liver metastases; 81
Diagnosis and staging of pancreatic adenocarcinoma with dynamic computed tomography; 600
Role of computed tomographic scans in the staging of esophageal and proximal gastric malignancies; 558

Cryopreservation
Clinical results of cryopreserved valved conduits in the pulmonary ventricle-to-pulmonary artery position; 587

Dextran
Hyperoncotic ultrahigh molecular weight dextran solutions reduce trypsinogen activation, prevent acinar necrosis, and lower mortality in rodent pancreatitis; 40

Diabetes mellitus
Is profound peripheral insulin resistance in patients with pancreatic cancer caused by a tumor-associated factor?; 61

Dialysis graft
Does the use of erythropoietin in hemodialysis patients increase dialysis graft thrombosis rates?; 650

Distal splenorenal shunt
Shunt surgery versus endoscopic sclerotherapy for variceal hemorrhage: late results of a randomized trial; 27

Double aortic arch
Double aortic arch causing tracheoesophageal compression; 628

Duodenal perforation
Surgical decisions in the management of duodenal perforation complicating endoscopic sphincterotomy; 700

Editorials
Editorial comment; 207, 224, 228, 331, 718

Electrolytes
Site specificity and meal stimulation of the intestinal absorption of water, electrolytes, and bile acids; 704

Endoscopic retrograde cholangiopancreatography
Endoscopic retrograde cholangiopancreatography after laparoscopic cholecystectomy; 581
Endoscopic retrograde cholangiopancreatography and laparoscopic cholecystectomy; 474
Surgery for gallstone pancreatitis; 515

Endoscopic sclerotherapy
Shunt surgery versus endoscopic sclerotherapy for variceal hemorrhage: late results of a randomized trial; 27

Endoscopic sphincterotomy
Surgical decisions in the management of duodenal perforation complicating endoscopic sphincterotomy; 700

Endoscopy
Role of endoscopy in gallstone pancreatitis; 519

Epidermal growth factor
Growth factors and wound healing: biochemical properties of growth factors and their receptors; 728

Epidermoid carcinoma
Editorial comment (E); 718
Head and neck reconstruction using the platysma myocutaneous flap; 713

Erythropoietin
Does the use of erythropoietin in hemodialysis patients increase dialysis graft thrombosis rates?; 650

Esophageal cancer
Role of computed tomographic scans in the staging of esophageal and proximal gastric malignancies; 558

Esophageal reconstruction
A reliable operative procedure for preparing a sufficiently nourished gastric tube for esophageal reconstruction; 273

Esophagectomy
Endoscopic drainage of esophageal suture line leaks; 362

Esophagus
What's in *The British Journal of Surgery*?; 383

Extracorporeal shock-wave lithotripsy
Gallstone lithotripsy; 430
Lithotripsy in the treatment of biliary stones; 479
Overview of therapeutic modalities for the treatment of gallstone diseases; 420

Familial adenomatous polyposis
Similar functional results after restorative proctocolectomy in patients with familial adenomatous polyposis and mucosal ulcerative colitis; 322

Fasciotomy
Surgical management of the post-phlebitic leg syndrome; 613

Fibroblast growth factor
Growth factors and wound healing: biochemical properties of growth factors and their receptors; 728
Reduction of bacterial translocation with oral fibroblast growth factor and sucralfate; 195

Flow cytometry
Determination of placental ferritin-positive peripheral lymphocytes in early stages of breast cancer; 213

Gallstones
Clinical manifestations and impact of gallstone disease; 404
Comparison of laparoscopic cholecystectomy with open cholecystectomy in a single center; 459
Complications after laparoscopic cholecystectomy; 533
Complications of laparoscopic cholecystectomy; 527
Cost-effectiveness of laparoscopic cholecystectomy versus open cholecystectomy; 466
Diagnosis and management of biliary complications of laparoscopic cholecystectomy; 663
Effect of nonbiliary problems on laparoscopic cholecystectomy; 522
Endoscopic retrograde cholangiopancreatography after laparoscopic cholecystectomy; 581
Endoscopic retrograde cholangiopancreatography and laparoscopic cholecystectomy; 474
Exposure, dissection, and laser versus electrosurgery in laparoscopic cholecystectomy; 492
Foreward: gallstones and laparoscopic cholecystectomy; 388
Gallbladder and gallstone removal, open versus closed laparoscopy, and pneumoperitoneum; 497
Gallstone lithotripsy; 430
Laparoscopic approach to common duct pathology; 487
Laparoscopic cholecystectomy in pregnancy; 625
Laparoscopic cholecystectomy: the European experience; 444
Laparoscopic management of acute cholecystitis; 508
Laparoscopic versus open cholecystectomy: the Canadian experience; 455
Lithotripsy in the treatment of biliary stones; 479
Mini-lap cholecystectomy; 439
National Institutes of Health consensus development conference statement on gallstones and laparoscopic cholecystectomy; 390
Natural history of asymptomatic and symptomatic gallstones; 398
Open cholecystectomy; 434
Oral and contact dissolution of gallstones; 427
Overview of therapeutic modalities for the treatment of gallstone diseases; 420
Pathogenesis of gallstones; 410
Primary and secondary prevention of gallstone disease: implications for patient management and research priorities; 541

Registry of laparoscopic cholecystectomy and new and evolving laparoscopic techniques; 536
Role of endoscopy in gallstone pancreatitis; 519
Role of open choledochotomy in the treatment of choledocholithiasis; 483
Routine versus selective intraoperative cholangiography; 505
Spectrum and management of major complications of laparoscopic cholecystectomy; 655
Surgery for gallstone pancreatitis; 515
The laparoscopic buck stops here!; 472
U.S. experience with laparoscopic cholecystectomy; 450

Gangrene
Symmetrical peripheral gangrene (Purpura fulminans) complicating pneumococcal sepsis; 642

Gastric bypass
Results of the surgical treatment of obesity; 155

Gastric cancer
Diagnosis and management of stage IE and stage IIE gastric lymphomas; 561
Role of computed tomographic scans in the staging of esophageal and proximal gastric malignancies; 558

Gastric tube
A reliable operative procedure for preparing a sufficiently nourished gastric tube for esophageal reconstruction; 273

Gastrin
Initiation of gastrin expression during the development of the mouse pancreas; 23

Gastrinoma
Biologic behavior of sporadic gastrinoma located to the right and left of the superior mesenteric artery; 101

Gastritis
Lethal nature of ischemic gastropathy; 646

Gastrointestinal tract
What's in *The British Journal of Surgery*?; 383

Gastroparesis
Lethal nature of ischemic gastropathy; 646

Gastropathy
Lethal nature of ischemic gastropathy; 646

Gene mapping
Human genome project; 258

Gene therapy
Molecular biology and therapy of disease; 720

Gene transfer
A review of gene transfer techniques; 350

Genome
Human genome project; 258

Geriatric surgery
Effects of age and severity of illness on outcome and length of stay in geriatric surgical patients; 577

Glutamine
Dexamethasone stimulation of glutaminase expression in mesenteric lymph nodes; 34

Gut
Abnormal plasma gut hormones in pathologic duodenogastric reflux and their response to surgery; 169
Continuous duodenal feeding restores gut blood flow and increases gut oxygen utilization during PEEP ventilation for lung injury; 188
Role of polyamine biosynthesis during gut mucosal adaptation after burn injury; 144
Sepsis impairs gut amino acid absorption; 150

Hamartoma
Changing clinical picture of mammary hamartoma; 208

Hartmann's procedure
Management of the leaking rectal stump after Hartmann's procedure; 285

Hemodialysis grafts
Fate of infected and eroded hemodialysis grafts and autogenous fistulas; 632

Hemorrhagic shock
Continuous infusion of cefazolin is superior to intermittent dosing in decreasing infection after hemorrhagic shock; 203
Editorial comment (E), 207

Hemostasis
Alternate hemihepatic vascular control technique for hepatic resection; 365
Development of independent vessel security after ligation with absorbable sutures or clips; 345

Hepatectomy
Hepatectomy impairs hepatic processing of somatostatin-14; 89

Hepatic metastases
Biologic behavior of sporadic gastrinoma located to the right and left of the superior mesenteric artery; 101
Comparisons of dynamic infusion and delayed computed tomography, intraoperative ultrasound, and palpation in the diagnosis of liver metastases; 81

Hepatic resection
Alternate hemihepatic vascular control technique for hepatic resection; 365
Evaluation of 50 consecutive segmental hepatic resections; 621

Hepaticocutaneous jejunostomy
Appraisal of hepaticocutaneous jejunostomy in the management of hepatolithiasis; 332

Hepaticojejunostomy
Aggressive surgical therapy for Klatskin tumors; 554

Hepatolithiasis
Appraisal of hepaticocutaneous jejunostomy in the management of hepatolithiasis; 332

Hernia repair
Simplified preperitoneal Marlex hernia repair; 595

Hernioplasty
Critical scrutiny of the open "tension-free" hernioplasty; 369

Homografts
Clinical results of cryopreserved valved conduits in the pulmonary ventricle-to-pulmonary artery position; 587

Hormone receptor
Comparison of classic and quantitative prognostic factors in hormone receptor-positive and hormone receptor-negative female breast cancer; 307

Hormone replacement therapy
Hormone replacement therapy in previously treated breast cancer patients; 372

Hyperparathyroidism
Intraoperative identification of parathyroid glands with methylene blue infusion; 380

Hypothermia
Editorial comment (E), 331
Recovery from postoperative hypothermia predicts survival in extensively burned patients; 326

Iatrogenic injury
Diagnosis and management of biliary complications of laparoscopic cholecystectomy; 663
Spectrum and management of major complications of laparoscopic cholecystectomy; 655

Ileus
How conservatively can postoperative small bowel obstruction be treated?; 121
Small bowel myoelectric activity in peritonitis; 681
Treatment of acute postoperative ileus with octreotide; 113

Infection
Continuous infusion of cefazolin is superior to intermittent dosing in decreasing infection after hemorrhagic shock; 203
Editorial comment (E), 207

Inguinal hernia
Critical scrutiny of the open "tension-free" hernioplasty; 369

Innervation
Nitric oxide inhibits resting sphincter of Oddi activity; 74

Insulin resistance
Is profound peripheral insulin resistance in patients with pancreatic cancer caused by a tumor-associated factor?; 61

Insulin secretion
Sequential evaluation of islet cell responses to glucose in the transplanted pancreas in humans; 15

Insulin-like growth factor
Growth factors and wound healing: biochemical properties of growth factors and their receptors; 728

Intestinal allograft
Successful treatment of ongoing intestinal allograft rejection permits recovery of graft structure and function; 131

Intestinal ischemia
Somatostatin attenuates ischemic intestinal injury; 676

Intestinal obstruction
How conservatively can postoperative small bowel obstruction be treated?; 121

Intraoperative cholangiography
Laparoscopic cholecystectomy: the European experience; 444
Routine versus selective intraoperative cholangiography; 505
Surgery for gallstone pancreatitis; 515

Intraoperative ultrasound
Comparisons of dynamic infusion and delayed computed tomography, intraoperative ultrasound, and palpation in the diagnosis of liver metastases; 81

Ischemia
Direct revascularization for the treatment of forearm and hand ischemia; 312
Lethal nature of ischemic gastropathy; 646

Isoferritin
Determination of placental ferritin-positive peripheral lymphocytes in early stages of breast cancer; 213

Klatskin tumors
Aggressive surgical therapy for Klatskin tumors; 554

Laparoscopic cholecystectomy
Clinical manifestations and impact of gallstone disease; 404
Comparison of laparoscopic cholecystectomy with open cholecystectomy in a single center; 459
Complications after laparoscopic cholecystectomy; 533
Complications of laparoscopic cholecystectomy; 527
Complications of laparoscopic cholecystectomy: a national survey of 4,292 hospitals and an analysis of 77,604 cases; 9
Cost-effectiveness of laparoscopic cholecystectomy versus open cholecystectomy; 466
Diagnosis and management of biliary complications of laparoscopic cholecystectomy; 663
Effect of nonbiliary problems on laparoscopic cholecystectomy; 522
Endoscopic retrograde cholangiopancreatography after laparoscopic cholecystectomy; 581
Endoscopic retrograde cholangiopancreatography and laparoscopic cholecystectomy; 474
Exposure, dissection, and laser versus electrosurgery in laparoscopic cholecystectomy; 492
Foreward: gallstones and laparoscopic cholecystectomy; 388
Gallbladder and gallstone removal, open versus closed laparoscopy, and pneumoperitoneum; 497
Gallstone lithotripsy; 430
Laparoscopic approach to common duct pathology; 487
Laparoscopic cholecystectomy in pregnancy; 625
Laparoscopic cholecystectomy: the European experience; 444
Laparoscopic management of acute cholecystitis; 508
Laparoscopic versus open cholecystectomy: the Canadian experience; 455
Lithotripsy in the treatment of biliary stones; 479
Mini-lap cholecystectomy; 439
National Institutes of Health consensus development conference statement on gallstones and laparoscopic cholecystectomy; 390
Natural history of asymptomatic and symptomatic gallstones; 398
Open cholecystectomy; 434
Oral and contact dissolution of gallstones; 427
Overview of therapeutic modalities for the treatment of gallstone diseases; 420
Pathogenesis of gallstones; 410
Primary and secondary prevention of gallstone disease: implications for patient management and research priorities; 541
Registry of laparoscopic cholecystectomy and new and evolving laparoscopic techniques; 536
Role of endoscopy in gallstone pancreatitis; 519
Role of open choledochotomy in the treatment of choledocholithiasis; 483
Routine versus selective intraoperative cholangiography; 505
Spectrum and management of major complications of laparoscopic cholecystectomy; 655
Surgery for gallstone pancreatitis; 515
Technique of intraluminal biliary ultrasonography during laparoscopic cholecystectomy; 265
The laparoscopic buck stops here!; 472
U.S. experience with laparoscopic cholecystectomy; 450

Laparoscopy
Laparoscopic versus traditional appendectomy for suspected appendicitis; 670

Liver
What's in *The British Journal of Surgery?*; 738

Liver cancer
Evaluation of 50 consecutive segmental hepatic resections; 621

Liver ischemia
Effect of verapamil on hepatic ischemia/reperfusion injury; 96

Liver regeneration
Hepatectomy impairs hepatic processing of somatostatin-14; 89

Liver transplant
Two-clamp method to avoid portal anastomotic stenosis in liver transplantation; 367

Lung cancer
Extending the limits of lung cancer resection; 572

Lung injury
Continuous duodenal feeding restores gut blood flow and increases gut oxygen utilization during PEEP ventilation for lung injury; 188

Lymph fistula
Groin lymphorrhea complicating revascularization involving the femoral vessels; 341

Lymphocele
Groin lymphorrhea complicating revascularization involving the femoral vessels; 341

Lymphocyst
Groin lymphorrhea complicating revascularization involving the femoral vessels; 341

Lymphocytes
Dexamethasone stimulation of glutaminase expression in mesenteric lymph nodes; 34

Lymphorrhea
Groin lymphorrhea complicating revascularization involving the femoral vessels; 341

Managed care planning
The surgeon as gatekeeper; 550

Manometry
Clinical and functional characterization of high gastroesophageal reflux; 163

Mast cells
Role of mast cells in peritoneal adhesion formation; 127

Melanoma
Editorial comment (E), 228
Influence of level and depth on recurrence rate in thin melanomas; 225

Mesenteric ischemia
Adjunctive vasodilator therapy in the treatment of murine ischemia; 697

Mesenteric lymph nodes
Dexamethasone stimulation of glutaminase expression in mesenteric lymph nodes; 34

Methyl tert-butyl ether
Oral and contact dissolution of gallstones; 427

Microcirculation
Hyperoncotic ultrahigh molecular weight dextran solutions reduce trypsinogen activation, prevent acinar necrosis, and lower mortality in rodent pancreatitis; 40

Milton, H.
H. Milton: visionary surgeon; 355

Molecular biology
A review of gene transfer techniques; 350
Molecular biology and therapy of disease; 720

Molecular biopsy
Human genome project; 258

Monoclonal antibodies
Use of the radiolabeled murine monoclonal antibody, ^{111}In-CYT-103, in the management of colon cancer; 137

Motility
Motility differences between long-segment and short-segment Barrett's esophagus; 686

Mucosal injury
Role of polyamine biosynthesis during gut mucosal adaptation after burn injury; 144

Multiple organ failure
Diagnosis and management of pericardial abscess in trauma patients; 637
What's in a name? An acronym or a response?; 299

Myocutaneous flaps
Editorial comment (E); 718
Head and neck reconstruction using the platysma myocutaneous flap; 713

National Institutes of Health
National Institutes of Health consensus development conference statement on gallstones and laparoscopic cholecystectomy; 390

Needle localization
Impact of method of anesthesia on the accuracy of needle-localized breast biopsies; 218

Nitric oxide
Nitric oxide inhibits resting sphincter of Oddi activity; 74

Nonsteroidal anti-inflammatory drugs
Ketorolac prevents postoperative small intestinal ileus in rats; 107

Obesity
Results of the surgical treatment of obesity; 155

Octreotide
Somatostatin attenuates ischemic intestinal injury; 676
Treatment of acute postoperative ileus with octreotide; 113

Open cholecystectomy
Comparison of laparoscopic cholecystectomy with open cholecystectomy in a single center; 459
Cost-effectiveness of laparoscopic cholecystectomy versus open cholecystectomy; 466
Laparoscopic versus open cholecystectomy: the Canadian experience; 455
Open cholecystectomy; 434
Overview of therapeutic modalities for the treatment of gallstone diseases; 420

Open choledochotomy
Role of open choledochotomy in the treatment of choledocholithiasis; 483

Pancreas
Initiation of gastrin expression during the development of the mouse pancreas; 23

Pancreas transplantation
Sequential evaluation of islet cell responses to glucose in the transplanted pancreas in humans; 15

Pancreatic cancer
A method for safe pancreaticojejunostomy; 270
Cost-benefit analysis of the work-up for pancreatic cancer; 53
Diagnosis and staging of pancreatic adenocarcinoma with dynamic computed tomography; 600
Is profound peripheral insulin resistance in patients with pancreatic cancer caused by a tumor-associated factor?; 61
Prognostic indicators for survival after resection of pancreatic adenocarcinoma; 68

Pancreatic insulinoma
Pancreatic insulinomas; 243

Pancreatic sepsis
Pathogenesis of pancreatic sepsis; 46

Pancreaticoduodenectomy
Modified pancreaticogastrostomy following pancreaticoduodenectomy; 317
Preoperative visceral angiography alters intraoperative strategy during the Whipple procedure; 607
Prognostic indicators for survival after resection of pancreatic adenocarcinoma; 68

Pancreaticogastrostomy
Modified pancreaticogastrostomy following pancreaticoduodenectomy; 317

Pancreaticojejunostomy
A method for safe pancreaticojejunostomy; 270

Pancreatitis
An "open-closed" technique for the treatment of necrotizing pancreatitis; 277
Hyperoncotic ultrahigh molecular weight dextran solutions reduce trypsinogen activation, prevent acinar necrosis, and lower mortality in rodent pancreatitis; 40
Pathogenesis of pancreatic sepsis; 46
Role of endoscopy in gallstone pancreatitis; 519
Surgery for gallstone pancreatitis; 515

Papaverine
Adjunctive vasodilator therapy in the treatment of murine ischemia; 697

Parathyroid glands
Intraoperative identification of parathyroid glands with methylene blue infusion; 380

Parathyroid localization
Intraoperative identification of parathyroid glands with methylene blue infusion; 380

Peptide growth factors
Growth factors and wound healing: biochemical properties of growth factors and their receptors; 728

Peptide YY
Peptide YY ameliorates caerulein induced pancreatic injury in the rat; 690

Pericardial abscess
Diagnosis and management of pericardial abscess in trauma patients; 637

Pericardiectomy
Diagnosis and management of pericardial abscess in trauma patients; 637

Peritonitis
Small bowel myoelectric activity in peritonitis; 681

Phlebitis
Surgical management of the post-phlebitic leg syndrome; 613

Phyllodes tumors
Phyllodes tumors; 376

Platelet-derived growth factor
Growth factors and wound healing: biochemical properties of growth factors and their receptors; 728

Pneumococcal sepsis
Symmetrical peripheral gangrene (Purpura fulminans) complicating pneumococcal sepsis; 642

Polyamines
Role of polyamine biosynthesis during gut mucosal adaptation after burn injury; 144

Portacaval shunt
Critical appraisal of the angiographic portacaval shunt (TIPS); 566

Portal anastomosis
Two-clamp method to avoid portal anastomotic stenosis in liver transplantation; 367

Portal shunt
Indications and technique for the use of the porto-renal shunt in the treatment of variceal hemorrhage; 336

Portal-systemic shunt
Shunt surgery versus endoscopic sclerotherapy for variceal hemorrhage: late results of a randomized trial; 27

Proctocolectomy
Similar functional results after restorative proctocolectomy in patients with familial adenomatous polyposis and mucosal ulcerative colitis; 322

Prostaglandins
Ketorolac prevents postoperative small intestinal ileus in rats; 107

Pulmonary artery reconstruction
Clinical results of cryopreserved valved conduits in the pulmonary ventricle-to-pulmonary artery position; 587

Purpura fulminans
Symmetrical peripheral gangrene (Purpura fulminans) complicating pneumococcal sepsis; 642

Quality of life
What's in *The British Journal of Surgery?*; 738

Radiology
How American surgeons introduced radiology into U.S. medicine; 252

Radiotherapy
Randomized trial of intraoperative radiotherapy in carcinoma of the stomach; 178

Reconstructive surgery
Editorial comment (E); 718
Head and neck reconstruction using the platysma myocutaneous flap; 713

Rectal cancer
Prognostic evaluation of perineural invasion in rectal cancer; 233

Reflux
Abnormal plasma gut hormones in pathologic duodenogastric reflux and their response to surgery; 169
Clinical and functional characterization of high gastroesophageal reflux; 163

Reperfusion
Effect of verapamil on hepatic ischemia/reperfusion injury; 96

Resident education
Is fellowship training in alimentary tract surgery necessary?; 2
Teaching and testing technical skills; 358

Revascularization
Direct revascularization for the treatment of forearm and hand ischemia; 312

Sepsis
Sepsis impairs gut amino acid absorption; 150

Small bowel transplantation
Successful treatment of ongoing intestinal allograft rejection permits recovery of graft structure and function; 131

Small intestinal ileus
Ketorolac prevents postoperative small intestinal ileus in rats; 107

Small intestine
Site specificity and meal stimulation of the intestinal absorption of water, electrolytes, and bile acids; 704

Somatostatin
Hepatectomy impairs hepatic processing of somatostatin-14; 89
Somatostatin attenuates ischemic intestinal injury; 676

Sphincter of Oddi
Nitric oxide inhibits resting sphincter of Oddi activity; 74

Sternotomy
H. Milton: visionary surgeon; 355

Stomach cancer
Randomized trial of intraoperative radiotherapy in carcinoma of the stomach; 178

Sucralfate
Reduction of bacterial translocation with oral fibroblast growth factor and sucralfate; 195

Surgical heritage
How American surgeons introduced radiology into U.S. medicine; 252

Surgical specialists
The surgeon as gatekeeper; 550

Sutures
Development of independent vessel security after ligation with absorbable sutures or clips; 345

The British Journal of Surgery
What's in *The British Journal of Surgery?*; 383, 738

Thoracic outlet syndrome
Thoracic outlet syndrome: a useful exercise treatment option; 282

Thoracic surgery
Use of thoracoscopy in clinical practice; 592

Thoracoscopy
Use of thoracoscopy in clinical practice; 592

Thrombolytic agents
What's in *The British Journal of Surgery?*; 738

Thrombosis
Does the use of erythropoietin in hemodialysis patients increase dialysis graft thrombosis rates?; 650

Tissue plasminogen activator
Dose dependency and wound healing aspects of the use of tissue plasminogen activator in the prevention of intra-abdominal adhesions; 229

Tracheoesophageal compression
Double aortic arch causing tracheoesophageal compression; 628

Transforming growth factor
Growth factors and wound healing: biochemical properties of growth factors and their receptors; 728

Transfusion
What's in *The British Journal of Surgery?*; 738

Trauma
Diagnosis and management of pericardial abscess in trauma patients; 637

Tropical medicine
What's in *The British Journal of Surgery?*; 383

Ulcerative colitis
Similar functional results after restorative proctocolectomy in patients with familial adenomatous polyposis and mucosal ulcerative colitis; 322

Ultrasonography
Technique of intraluminal biliary ultrasonography during laparoscopic cholecystectomy; 265

Upper gastrointestinal system
What's in *The British Journal of Surgery?*; 738

Variceal hemorrhage
Critical appraisal of the angiographic portacaval shunt (TIPS); 566
Indications and technique for the use of the porto-renal shunt in the treatment of variceal hemorrhage; 336
Shunt surgery versus endoscopic sclerotherapy for variceal hemorrhage: late results of a randomized trial; 27

Vasodilation
Adjunctive vasodilator therapy in the treatment of murine ischemia; 697

Venous access
Major long-term complications in 1,422 permanent venous access devices; 249

Verapamil
Effect of verapamil on hepatic ischemia/reperfusion injury; 96

Whipple procedure
Preoperative visceral angiography alters intraoperative strategy during the Whipple procedure; 607

Wound healing
Dose dependency and wound healing aspects of the use of tissue plasminogen activator in the prevention of intra-abdominal adhesions; 229
Growth factors and wound healing: biochemical properties of growth factors and their receptors; 728
